

UNION WORK FORCE IS

17% more productive

OUR PROBLEM: The Mechanical Contractors Association (MCA) members are more productive than all others—guaranteeing a more cost-effective project for the end user.

OUR PROBLEM: Union construction workers have been found to be 17% more productive — and great labor productivity can only reduce project costs, but it improves the project's schedule and quality. (See Practices for Labor Productivity, Case Friday, Independent Project Analysis, Inc.)

The MCA backs its "Proven with Proof" data on our site for building project examples and testimonials: www.ohio.gov

PROVEN TEAMWORK

"OUR UNION CONTRACTORS SAVED US

6 months in Down Time!"

The nation's largest pharmaceutical manufacturer of drug manufacturing equipment was on the verge of shutting when 25% of its manufacturing capacity was disrupted in a fire.

Thanks to the expertise of their union construction and highly trained union craftspersons, the plant was back up and running in less than 6 months with no schedule savings.

When a union construction and craft union workforce become your partner, you'll experience the best investment and cost efficiency that can make your project a success like no other!

OHIO UNION JOBS ARE

5 Times Safer.

OSHA statistics prove that Ohio Building and Construction Trade members work safer than non-union crews. Why? Training and experience. Thousands of hours of classroom instruction, strict safety standards, and on-the-job experience make our union workforce the safest in the business.

Our best and safe our best for you. Visit our web site, www.ohiojobsites.com, for statistics, project examples, and testimonials that PROVE the union workforce is the best workforce.

PROVEN TEAMWORK
PROVEN VALUE

"When you are safe, you also provide a competitive edge for our construction through lower workers' compensation costs and less lost productivity."
